Notice to Consulting Firms

The Kansas Department of Transportation (KDOT) is seeking letters of interest from qualified consulting firms capable of functioning as a Program Manager Consultant (PMC) for a portion of the new 10-year Eisenhower Legacy Transportation Program (IKE Program), beginning with a three-year contract with options to renew for the life of the program.

The IKE Program was approved by the Kansas Legislature on March 19, 2020 and signed into law by Governor Laura Kelly on April 2, 2020. The Ike Program will provide funding sources and bonding authority to complete preservation, modernization, and expansion type projects between 2020 and 2030. A list of modernization and expansion projects that have been selected for the development pipeline can be found <http://www.ksdot.org/IKE.asp>. Design and preliminary engineering is anticipated to begin on announced projects not already under design. It is anticipated the PMC will be responsible for the management of a portion of heavy preservation work and the majority of the modernization and expansion projects for the life of the IKE Program.

The PMC will provide technical and professional expertise needed to meet the demands of the IKE Program, without unnecessarily increasing KDOT staff. The services solicited from the PMC will include IKE Program oversight and support of project-level activities, including, but not limited to project planning, project pro-

gramming review and support, preparing and issuing industry request for information, public involvement, preliminary design, environmental studies, ROW acquisition, final design, construction engineering, and inspection, to ensure the overall IKE Program goals are met.

Requirements

Interested consulting teams must: (a) be prequalified by KDOT in 201 Location and Design Concept Studies/Corridor Studies; (b) 211 Highway Design – Major Facility; (c) 221 Non-Standard Span Bridge Design; (d) Traffic Control Analysis and Design; and (e) submit a Letter of Interest (LOI) on or before 12:00 p.m. Friday June 12, 2020 to David Lutgen, P.E., Contracts Engineer for KDOT at kdod.designcontracts@ks.gov, with the subject line reading Firm_Name LOI IKE Program PMC. LOIs in the form of a PDF document, maximum of six pages with a Program Management history appendix up to six pages. LOIs should express interest in the operating as the IKE Program PMC and describe qualifications for the professional services sought by KDOT, including any special expertise, skill, experience, or knowledge of the team, its employees and any subconsultant the team intends to utilize. If a team is not currently prequalified by KDOT but is interested in obtaining prequalification, then please view the requirements and categories at <http://www.ksdot.org/divengdes/prequal/default.asp>. For licensure and other requirements applicable to the practice of technical professions within the State of Kansas, please consult the website of the Kansas Board of Technical Professions at <http://www.ksbtp.ks.gov/>. All teams doing business with KDOT must be registered and in good standing under the laws of the State of Kansas and comply with applicable state and federal laws, rules and regulations.

Consultant Preclusion and Previous Program Projects

The selected IKE PMC will be precluded from proposing as a prime consultant for design and/or construction engineering/inspection services for any project selected and administered under the IKE Program other than transportation planning projects and certain alternative delivery projects. The selected IKE PMC may serve as a subconsultant or subcontractor on any projects managed by KDOT staff but shall not serve as a subconsultant or subcontractor or otherwise be part of any consultant team for projects managed by the IKE PMC. The selected IKE PMC may serve any function as part of a design builder's design build team on KDOT managed projects so long as the federal rules and regulations are followed. The IKE PMC's involvement in other alternative delivery models that are not design build will be visited on a case-by-case basis, but they are not outright precluded at this time on KDOT managed projects. The selected IKE PMC may propose on transportation planning projects and contracts as the prime consultant or subconsultants. Any existing project already under contract (previous program project) that is selected for construction under the IKE Program may remain with the IKE PMC unless KDOT finds that this is not in the best interests of the state due to potential conflicts of interests, consultant workload, or other factors. A change order will be negotiated for any

(continued)

modification or termination for convenience of an existing contract. Any new procurement following the cancellation of a contract will follow KDOT's QBS process.

Qualifications-Based Selection Process

Based on the qualifications submitted and other information available to the shortlist committee, on or about June 19, 2020 three to five teams will be shortlisted and all teams submitting LOIs will be notified by return email. After shortlisting individual interviews will be scheduled with the shortlisted teams and a selection committee. The selection committee will select a single IKE PMC to perform the professional services. Technical proposals will be evaluated on the basis of 1) ability to demonstrate ability to innovate and expedite IKE Program projects; 2) demonstrate a desire to work as an extension of KDOT staff to deliver IKE Program goals; 3) the ability to implement strategies used by other agencies and industry to deliver the IKE Program goals; 4) professional qualifications; 5) key staff that will be committed to operating on KDOT's behalf as the IKE Program PMC; 6) experience of staff assigned to IKE Program PMC role; 7) proposed approach to performance of services; 8) workload of the team; and 9) past performance history. In the event a negotiated agreement with the highest ranked team cannot be reached, negotiations will terminate with such team and negotiations will commence with the next highest ranked team, and so on, until either agreement is reached for a satisfactory scope of services for a fair and reasonable price, or KDOT decides to pursue other alternatives. KDOT intends to conclude or terminate negotiations on or before August 26, 2020.

Executive Order No. 20-35 Temporarily Expanding Telemedicine and Addressing Certain Licensing Requirements to Facilitate Economic Recovery and Prevent Future Outbreaks of COVID-19

WHEREAS, securing the health, safety, and economic well-being of residents of the State of Kansas is this Administration's top priority;

WHEREAS, Kansas is facing a crisis of economic insecurity resulting from a rapid increase in unemployment and lost wages;

WHEREAS, economic insecurity due to unemployment is a serious menace to the health, morals, and welfare of the people of Kansas, as expressed in K.S.A 44-702 of the Kansas Employment Security Law;

WHEREAS, the economic recovery of Kansas is imperiled by the imminent threat of surges in COVID-19 infections in the State of Kansas as statewide restrictions on businesses and individual movement and gatherings are lifted—since May 15, 2020, fifteen counties in the State have for the first time issued an emergency declaration resulting from the pandemic, indicating a further threat to the State's economic recovery;

WHEREAS, on March 20, 2020, I executed Executive Order 20-08 temporarily expanding telemedicine and addressing certain licensing requirements to combat the effects of COVID-19, and the justifications for that Order are fully set forth therein and incorporated herein by reference;

WHEREAS, the operative provisions of Executive Order 20-08 were not only necessary to deal with the public health crisis caused by COVID-19 but are now also necessary to deal with the economic emergency resulting from COVID-19 in that the operative provisions allow medical professionals and healthcare workers to contin-

ue to provide needed services that members of the public may still not be willing to seek in-person due to fear of contracting or spreading the disease;

WHEREAS, continuing the operative provisions of Executive Order 20-08 minimizes the economic loss that would result if these medical professionals and healthcare workers were no longer able to provide telemedicine services to patients who might otherwise forego care;

WHEREAS, the imminent threat of new COVID-19 outbreaks requires the continued availability of medical services through telemedicine; and

WHEREAS, this Administration will do whatever it can to assist Kansans in these challenging times, especially vulnerable Kansans and those requiring routine health care.

NOW, THEREFORE, pursuant to the authority vested in me as Governor of the State of Kansas, including but not limited to the authority granted me by K.S.A. 48-924 and K.S.A. 48-925, in order to mitigate the economic effects of the spread of COVID-19, to prevent and identify new outbreaks of COVID-19, and to promote and secure the safety and protection of the civilian population, I hereby direct and order the following:

1. The Kansas State Board of Healing Arts ("the Board") shall not enforce any statute, rule, or regulation that would require physicians to conduct an in-person examination of a patient prior to the issuance of a prescription or order the administration of medication, including controlled substances, as long as the physician otherwise complies with the provisions of this order.
2. All physicians are encouraged to utilize telemedicine services, when appropriate for their patients, to avoid unnecessary patient travel both in-state and out of state.
3. Out-of-state physicians may utilize telemedicine when treating patients in Kansas without the necessity of securing a license to practice medicine in the state, provided the out of state physician advises the Board of the physician's practice in this state via telemedicine in writing in a manner to be determined by the Board and holds an unrestricted license to practice medicine in the state in which the physician practices and is not the subject of an investigation or disciplinary proceeding. The Board is authorized to extend the provisions of this paragraph to other healthcare professionals regulated by the Board to the extent the board deems such extension both necessary or appropriate to address impacts of the COVID-19 pandemic and consistent with patient safety.
4. Physicians under quarantine or self-quarantine are permitted to practice telemedicine.
5. Every physician practicing pursuant to the provisions of this order is encouraged to access the Prescription Monitoring Program, if in the judgment of the physician, it is appropriate for the individual patient being evaluated or treated, before a controlled substance prescription is issued.

(continued)

6. Every physician treating a patient through telemedicine shall conduct an appropriate assessment and evaluation of the patient's current condition and document the appropriate medical indication for any prescription issued.
7. The Board is authorized to grant a temporary emergency license to practice any profession regulated by the Board to an applicant whose qualifications the Board determines to be sufficient to protect public safety and welfare within the scope of professional practice permitted by the temporary emergency license for the purpose of preparing for, responding to, and mitigating any effect of COVID-19. Further, the Board is authorized to temporarily waive, to the extent the Board determines such waiver will not harm public safety and welfare, any other regulatory requirements falling under the Board's enforcement authorities for the purpose of preparing for, responding to, and mitigating any effect of COVID-19.
8. Except as specifically stated herein, all other regulations remain in full force and effect.
9. Nothing in this order shall affect the enforcement or applicability of any laws, including K.S.A. 65-4a10 and K.S.A. 40-2,215, regulating the provision or performance of abortions in Kansas.
10. For the purposes of this order, the terms "telemedicine," "telemedicine services," and "telehealth" have the same meaning.
11. This order supersedes any contrary order by any local health department regarding telemedicine and should be read in conjunction with previous executive orders responding to the COVID-19 pandemic. Any contrary provision in previous orders is superseded by this order.

This document shall be filed with the Secretary of State as Executive Order No. 20-35. It shall become effective immediately and remain in force until rescinded, until June 30, 2020, or until the statewide State of Disaster Emergency proclaimed on May 26, 2020, expires, whichever is earlier.

Drivers' License and Vehicle Registration and Regulation During State of Disaster Emergency

WHEREAS, securing the health, safety, and economic well-being of residents of the State of Kansas is this Administration's top priority;

WHEREAS, Kansas is facing a crisis of economic insecurity resulting from a rapid increase in unemployment and lost wages;

WHEREAS, economic insecurity due to unemployment is a serious menace to the health, morals, and welfare of the people of Kansas, as expressed in K.S.A 44-702 of the Kansas Employment Security Law;

WHEREAS, the economic recovery of Kansas is imperiled by the imminent threat of surges in COVID-19 infections in the State of Kansas as statewide restrictions on businesses and individual movement and gatherings are lifted—since May 15, 2020, fifteen counties in the State have for the first time issued an emergency declaration resulting from the pandemic, indicating a further threat to the State's economic recovery.

WHEREAS, on March 23, 2020, I executed Executive Order 20-12 regarding driver's license and vehicle registration and regulation during the public health emergency, and the justifications for that Order are fully set forth therein and incorporated herein by reference;

WHEREAS, the operative provisions of Executive Order 20-12 were not only necessary to deal with the public health crisis caused by COVID-19 but are now also necessary to deal with the economic emergency resulting from COVID-19 in that the operative provisions provide relief from certain motor vehicle registration, license, and permit requirements for which strict compliance would impede individuals from being able to operate motor vehicles as may be used to travel to and from work and places of business and commerce;

WHEREAS, continuing the operative provisions of Executive Order 20-12 minimizes the economic loss that would result if strict compliance with certain motor vehicle registration, license, and permit requirements resulted in fewer individuals being less able to travel to and from work and otherwise engage in commerce; and

WHEREAS, this Administration will do whatever it can to assist Kansans in these challenging times, including providing grace periods regarding drivers' license and vehicle registrations through the Kansas Department of Revenue Division of Vehicles to avoid immediate danger to the health, safety, and welfare of Kansans.

NOW, THEREFORE, pursuant to the authority vested in me as Governor of the State of Kansas, including but not limited to the authority granted me by K.S.A 48-924 and K.S.A 48-925, in order to mitigate the effects of the spread of COVID-19 I hereby direct and order the following:

1. The Kansas Department of Revenue Division of Vehicles ("Division of Vehicles") shall extend vehicle registration renewal deadlines for State based passenger vehicles, motorcycles, trucks and trailers. A vehicle registrant will not be charged with late fees or interest on delinquent vehicle registration, if the registrant does not file within the registrant's normal month renewal period.
2. The Division of Vehicles shall extend truck, truck tractor, and trailer registration renewal deadlines for State-based International Registration Plan ("IRP") registrants. A State-based IRP registrant will not be charged with late fees or interest on delinquent vehicle registration.

3. The Division of Vehicles shall extend any temporary, state sixty-day permits for recently purchased vehicles. Kansas residents who have purchased a new or used vehicle on or after January 1, 2020, and are operating with a valid sixty-day permit, may continue to use such temporary tag beyond the sixty-day period and the permit shall continue to authorize road use while this order is in effect.
4. The Division of Vehicles shall extend the terms of drivers' licenses and identification cards for all Kansas residents with State driver's licenses that expired beginning on March 12, 2020, and who are not able to renew at a State driver's license examination office due to the State's COVID-19 response.
5. All law enforcement agencies or officers shall use their discretion in deciding whether to enforce laws related to expired drivers' licenses and should consider the State of Disaster Emergency when reviewing credentials issued by the State of Kansas, as the Division of Vehicles will not indicate in its system that such drivers' credentials are or will be expired while the State of Disaster Emergency remains in effect.
6. All driver's license renewals and vehicle registrations extended by this Executive Order must be completed within 60 days of the expiration of this order.
7. No other laws or regulations relating to license and vehicle registration and regulation are affected by this order.
8. This order supersedes any contrary order by any local health department regarding drivers' licenses or vehicle registrations and should be read in conjunction with previous executive orders responding to the COVID-19 pandemic. Any contrary provision in previous orders is superseded by this order.

This document shall be filed with the Secretary of State as Executive Order No. 20-36. It shall become effective immediately and remain in force until rescinded, until June 30, 2020, or until the statewide State of Disaster Emergency proclaimed on May 26, 2020, expires, whichever is earlier.

4. This order does not change laws, regulations, or rules regarding estimated tax payments due April 15, 2020.
5. In the event the State of Disaster Emergency originally proclaimed on March 12, 2020, is lifted or expires prior to July 15, 2020, the Department of Revenue shall continue to exercise appropriate discretion to effectuate the waivers of penalties and interest for payments made up to July 15, 2020, as contemplated in this order.
6. All other laws, regulations, or rules relating to taxes remain in effect.
7. This order supersedes any contrary order by any local health department regarding taxes and should be read in conjunction with previous executive orders responding to the COVID-19 pandemic. Any contrary provision in previous orders is superseded by this order.

Executive Order No. 20-40

Temporarily Allowing Notaries and Witnesses to Act Via Audio-Video Communication Technology During State of Disaster Emergency

WHEREAS, securing the health, safety, and economic well-being of residents of the State of Kansas is this Administration’s top priority;

WHEREAS, Kansas is facing a crisis of economic insecurity resulting from a rapid increase in unemployment and lost wages;

WHEREAS, economic insecurity due to unemployment is a serious menace to the health, morals, and welfare of the people of Kansas, as expressed in K.S.A 44-702 of the Kansas Employment Security Law;

WHEREAS, the economic recovery of Kansas is imperiled by the imminent threat of surges in COVID-19 infections in the State of Kansas as statewide restrictions on businesses and individual movement and gatherings are lifted—since May 15, 2020, fifteen counties in the State have for the first time issued an emergency declaration resulting from the pandemic, indicating a further threat to the State’s economic recovery;

WHEREAS, on April 9, 2020, I executed Executive Order 20-20 temporarily allowing notaries and witnesses to act via audio-video communication technology, and the justifications for that Order are fully set forth therein and incorporated herein by reference;

WHEREAS, the operative provisions of Executive Order 20-20 were not only necessary to deal with the public health crisis caused by COVID-19 but are now also neces-

sary to deal with the economic emergency resulting from COVID-19 in that the operative provisions allow continued operation of business and personal transactions requiring notarization via remote to individuals who may still not be willing to seek in-person notarization due to fear of contracting or spreading the disease;

WHEREAS, continuing the operative provisions of Executive Order 20-20 minimizes the economic loss that would result if business and personal transactions could not be completed remotely for persons who would forego the transaction due to fear of contracting or spreading the disease during an in-person notarization; and

WHEREAS, in these challenging times this Administration will do whatever it can to avoid immediate dangers to the health, safety, and welfare of Kansans.

NOW, THEREFORE, pursuant to the authority vested in me as Governor of the State of Kansas, including but not limited to the authority granted me by K.S.A 48-924 and K.S.A 48-925, in order to slow the spread of COVID-19, I hereby direct and order the following:

1. During the duration of the State of Disaster Emergency related to the outbreak of COVID-19, the requirements that a person must appear before a Notary Public commissioned under the laws of Kansas pursuant to K.S.A. 53-503 and any related statutes, are suspended and such requirements are satisfied if the Notary Public performs a remote notarization via two-way audio-video communication technology, provided that:
 - a. the Notary Public commissioned in Kansas and the individual signing the document are both physically within the State while performing the notarial act;
 - b. the Notary Public is able to identify the individual signing the document, from personal knowledge or satisfactory evidence of the identity of the individual; and
 - c. the transaction follows any guidance posted by the Kansas Secretary of State on its website.
2. During the duration of the State of Disaster Emergency related to the outbreak of COVID-19, any act of witnessing required by Kansas law may be completed remotely by two-way audio-video communication technology, provided that:
 - a. The two-way audio-video communication technology must allow for direct, contemporaneous communication between the individual signing the document (“the signatory”) and the witness by sight and sound;
 - b. The signatory must attest to being physically located in Kansas during the two-way audio-video communication;
 - c. The witness must attest to being physically located in Kansas during the two-way audio-video communication;
 - d. The signatory must affirmatively state on the two-way audio-video communication what document the signatory is signing;

- e. Each page of the document being witnessed must be shown to the witness on the two-way audio-video communication technology in a means clearly legible to the witness and initialed by the signatory in the presence of the witness;
 - f. The act of signing must be captured sufficiently up close on the two-way audio-video communication for the witness to observe;
 - g. The signatory must transmit by fax or electronic means a legible copy of the entire signed document directly to the witness no later than the day after the document is signed;
 - h. The witness must sign the transmitted copy of the document as a witness and transmit the signed copy of the document back via fax or electronic means to the signatory within 24 hours of receipt;
 - i. If necessary, the witness may sign the original signed document as of the date of the original execution by the signatory provided that the witness receives the original signed document together with the electronically witnessed copy within thirty days from the date of the remote witnessing; and
 - j. If the Notary Public is being asked to certify to the appearance of the witnesses to a document, multiple-way audio-video communication technology must allow for direct, contemporaneous communication between the Notary Public, the signatory, and the witness by sight and sound.
3. All provisions of Article 16 of Chapter 16 of the Kansas Statutes Annotated concerning electronic transactions remain in full effect.
 4. During the duration of the State of Disaster Emergency related to COVID-19, notwithstanding any law or regulation of the State of Kansas to the contrary, absent an express prohibition in a document against signing in counterparts, all legal documents, including deeds, last wills and testaments, trusts, durable powers of attorney for property, and powers of attorney for health care, may be signed in counterparts by the witness(es) and the signatory. A Notary Public must be presented with a fax or electronic copy of the document signature pages showing the witness signatures on the same date the document is signed by the signatory if the Notary Public is being asked to certify to the appearance of the witnesses to a document.

This document shall be filed with the Secretary of State as Executive Order No. 20-40. It shall become effective immediately and remain in force until rescinded, until June 13, 2020, or until the statewide State of Disaster Emergency proclaimed on May 26, 2020, expires, whichever is earlier.

Executive Order No. 20-41 Licensure, Certification, and Registration for Persons and Licensure of "Adult Care Homes" During State of Disaster Emergency

WHEREAS, securing the health, safety, and economic well-being of residents of the State of Kansas is this Administration's top priority;

WHEREAS, Kansas is facing a crisis of economic insecurity resulting from a rapid increase in unemployment and lost wages;

WHEREAS, economic insecurity due to unemployment is a serious menace to the health, morals, and welfare of the people of Kansas, as expressed in K.S.A 44-702 of the Kansas Employment Security Law;

WHEREAS, the economic recovery of Kansas is imperiled by the imminent threat of surges in COVID-19 infections in the State of Kansas as statewide restrictions on businesses and individual movement and gatherings are lifted—since May 15, 2020, fifteen counties in the State have for the first time issued an emergency declaration resulting from the pandemic, indicating a further threat to the State's economic recovery;

WHEREAS, on April 2, 2020 CMS issued the *COVID-19 Long-Term Care Facility Guidance* to all states regarding the recommendations to help mitigate the spread of the 2019 Novel Coronavirus and to advise states on how to comply with CMS and CDC guidance to keep residents and patients safe and to maintain adequate staff levels and thereby to reduce the imminent threat of new outbreaks of COVID-19;

WHEREAS, on April 13, 2020 CMS issued a supplemental guidance *2019 Novel Coronavirus (COVID-19) Long-Term Care Facility Transfer Scenarios* to all states, which further provided details of how to transfer/discharge residents between facilities for the purpose of cohorting residents based on COVID-19 status as well as other aspects of how to provide care in long-term care facilities;

WHEREAS, as authorized by the *COVID-19 Long-Term Care Facility Guidance* and additional guidance issued by CMS, blanket federal waivers for certain CMS requirements of participation for adult care homes have been issued; thus suspension/waiver of certain state statutes, regulations and administrative rules is necessary to reduce the risk of further exposure and spread of COVID-19 and to assist with mitigation efforts during the COVID-19 public health emergency;

WHEREAS, adult care homes for purposes of this order are defined as any nursing facility, nursing facility for mental health, intermediate care facility for people with intellectual disability, assisted living facility, residential healthcare facility, home plus, boarding care home and adult day care facility; all of which are classifications of adult care homes and are required to be licensed by the secretary for aging and disability services in accordance with K.S.A. 39-923(a);

(continued)

WHEREAS, licensed facilities regularly undergo licensing visits, extensive training, strict adherence to admission/transfer/discharge requirements for residents, specific requirements for how nursing facilities are physically structured, and many other requirements that require approval/collaboration from the various state agencies;

WHEREAS, licensed facilities and units also provide significant services within Kansas, and the current licensing structure, which is carried out regularly when the state and country are not in the midst of a pandemic, would detrimentally impact the provision of services and care provided to Kansans;

WHEREAS, on April 15, 2020, I executed Executive Order 20-23 addressing licensure, certification, and registration regarding adult care homes, and the justifications for that Order are fully set forth therein and incorporated herein by reference;

WHEREAS, the operative provisions of Executive Order 20-23 were not only necessary to deal with the public health crisis caused by COVID-19 but are now also necessary to address the imminent threat of new COVID-19 outbreaks in adult care homes; and

WHEREAS, in these challenging times this Administration will do whatever it can to avoid immediate dangers to the health, safety, and welfare of Kansans, including preventing threats to the health and welfare of residents of state facilities.

NOW, THEREFORE, pursuant to the authority vested in me as Governor of the State of Kansas, including but not limited to the authority granted me by K.S.A 48-924 and K.S.A 48-925, in order to slow the spread of COVID-19, I hereby direct and order the following:

Pursuant to Executive Order 20-19, all state agencies who work with or collaborate with KDADS shall extend renewal deadlines for any occupational or professional license, certificate, or registration issued by a state agency or any board, commission, or other licensing authority within a state agency to a person or any for-profit or non-profit business or organization.
2. A temporary license, certification, or registration may be issued for persons who were previously licensed, certified, or registration issued by a Kansas state agency or any board, commission, division or other licensing authority within the State as long as the person was in good standing prior to the lapse of the license, certification, or registration. Additionally, the license, certificate, or registration may not have been issued more than five years from the date of this order.
3. A temporary aide authorization may be issued for persons who receive minimum training within the nursing facility as set forth by KDADS. The facility, at a minimum, needs to ensure persons with a temporary aide authorization are competent to perform/execute their duties, including but not limited to: infection control, proper patient handling, and

how to effectively assist with the performance of activities of daily living.

4. A temporary authorization may be issued for persons who were not previously licensed, certified, or registered by Kansas or any other state in the United States of America. The individuals who may be served by those who hold this temporary authorization are individuals who only require minimal supervision or assistance with activities of daily living. Any modification to bed capacity during the State of Disaster Emergency shall not impact the amount of quality care assessment owed by the adult care home, unless there is a change of ownership. Receiverships are exempt from this modification to quality care assessments. Every adult care home shall return to the original bed capacity authorized prior to the State of Disaster Emergency.
8. Due to the emergency, and in accordance with K.S.A. 39-936(g), for transfers or discharges as a result of the COVID-19 status of residents, the 30-day notification requirements in K.A.R. 26-39-102(f) and K.A.R. 26-39-101(g), are suspended until 30 days after the termination of the State of Disaster Emergency relating to isolation of patients necessary in response to the COVID-19 pandemic. The facility shall provide KDADS written notice within 5 calendar days of such a change in capacity/transfer/discharge.

12. The requirement to develop a plan as identified in K.A.R. 28-39-151(h)(2)(A) is suspended until 45 days after the termination of the State of Disaster Emergency, unless there are extenuating circumstances which may extend the deadline beyond 45 days at the discretion of KDADS.
13. The right to meet/participate in organized groups identified in K.A.R. 28-39-153(c) is suspended until there is a termination of the State of Disaster Emergency.
14. Consistent with CMS' guidance issued on April 2, 2020, adult care homes licensing requirements identified in K.S.A. 39-939(a), K.A.R. 26-40-301, K.A.R. 26-40-303 through 26-40-305, and K.A.R. 28-39-254 through 28-39-256 are suspended until 90 days following the termination of the State of Disaster Emergency.
