#### Notice to Consulting Firms

The Kansas Department of Transportation (KDOT) is seeking a consulting firm qualified in the following categories: (a) category 121 Aviation Systems/Airport Planning, and/or (b) category 333 Geotechnical Specialty Services (preferably with pavement condition analysis/inventory experience). A PDF (2Mb maximum size) of the interest response must be emailed to [kdot.designcontracts@ks.gov](mailto:kdot.designcontracts@ks.gov). Interest and experience responses are limited to four pages, the subject line of the reply email and the PDF file name must read "Pavement Management Plan\_FIRM NAME." A Letter of Interest (LOI) is required and must be received by 12:00 p.m. November 20, 2020 for the consulting firm to be considered. If a firm is not currently prequalified by KDOT an LOI may still be submitted. Firms not prequalified must also provide documentation that demonstrates the firm is qualified for each specified category listed in this notice for the project. Firms may use the KDOT prequalification form to provide this documentation. KDOT

1050 Prequalification category definitions (Blue Book) can be found at <http://www.ksdot.org/descons.asp>. All firms doing business with KDOT must be registered and in good standing under the laws of the State of Kansas at the time of contracting and must comply with applicable state and federal laws, rules and regulations.

### Project Information

KDOT is seeking the services of a qualified consulting engineering firm to update airport Pavement Management Plans (PMP) in accordance with the current version of Federal Aviation Administration (FAA) Advisory Circular 150/5380-7, PMP regarding airfield pavement conditions at Kansas airports currently listed in the FAA's National Plan of Integrated Airport Systems (NPIAS). The project will encompass approximately seventy-eight (78) airports statewide subject to conditions incumbent with federal funding from the FAA under the FAA Airport Improvement Program (AIP). The project is to be completed within one year upon the issuance of a Notice to Proceed. The services sought include on-site evaluation of pavement, completion of a pavement condition index (PCI) survey, and revision/update to the PMP to address how the airfield pavement may be maintained or upgraded to acceptable PCI levels. The final deliverable will be an updated PMP to be shared with each airport sponsor to assist airport sponsors in the continued development of airport capital improvement plans. Existing data and reports from the 2012-2015 and the 2018-2019 PMP studies can be obtained from KDOT Division of Aviation.

### Instructions for LOI

The main text of consultant's LOI must not exceed four (4) pages to address the topics listed below. LOIs shall address and include the following items:

- Project manager/engineer in charge.
- Provide name(s), qualifications, education, training, and expertise as well as prior relevant experience of consultant personnel intended to perform services.

### Qualifications-Based Selection Process

A qualification-based selection process conforming to FAA Advisory Circular 150/5100-14E *Architectural, Engineering, and Planning Consultant Services for Airport Grant Projects* will be utilized to select a consultant. No cost or pricing information shall be submitted with the LOI and will not be considered in the selection process to shortlist or rank proposals. Based on the qualifications submitted in the LOI and other information available to KDOT, on or about December 2, 2020 KDOT will shortlist three to five firms and notify all firms submitting LOIs of the names of the shortlisted firms by return email. Thereafter, KDOT will issue a Request for Proposal (RFP) to the shortlisted firms soliciting a technical proposal. At KDOT's option, shortlisted firms may be interviewed by telephone conference call or asked to attend meetings or participate in other discussions with KDOT. Technical proposals will be evaluated on the basis of the factors listed below, evenly weighted, to rank the most qualified firm in order of preference as first, second and third: 1) quality of the response; 2) experience and expertise of staff designated for project; 3) workload of the firm, and 4) past performance history. The highest ranked firm will be asked to enter into negotiations with KDOT for

a contract, with compensation provisions for payment of actual direct costs plus fixed fee, subject to an upper limit of compensation. In the event KDOT cannot reach agreement with the highest ranked firm, it will terminate negotiations with such firm and commence negotiations with the next highest ranked firm, and so on, until either agreement is reached for a satisfactory scope of services for a fair and reasonable price, or KDOT decides to pursue other alternatives. The agreement between KDOT and the selected consultant will be subject to all applicable federal rules and regulations as identified in AC 150/5100-14E.

The firm's accounting systems must have the following capabilities before the firm may be awarded a contract.

- Valid, reliable, and current costs must be available within the system to support actual costs and pricing data.
- Capability to provide a means of measuring the reasonableness of incurred costs.
- Capability to identify and accumulate allowable costs by contract or project records which will reconcile with the general ledger.
- Ability to provide supporting documentation of actual expenditures for each billing, based on costs.

Questions can be submitted by email at [kdot.designcontracts@ks.gov](mailto:kdot.designcontracts@ks.gov).
