Such projects could include, but not be limited to: (1) development of a part-

nership building to provide office and/or laboratory space to support education and research, advance innovation, foster microenterprises, and/or lease to industry partnerships in any market that aligns with University programs; (2) child care facilities; (3) adult living and retirement facilities; (4) restaurants; (5) retail, grocery, or pharmacy establishments; (6) financial institutions; (7) event and/or performance center; and (8) parking garage. Because tenant development and/or use must be a good fit with the university's educational mission and available space, please be prepared to provide the following information: (1) name; (2) square footage of space needs and desired lease term and location; (3) equipment, design, or other special needs; (4) description of anticipated use; and (5) the anticipated benefits to the university, its students and the WSU community (e.g. applied learning, joint research, faculty start-up, etc.). Additional information such as renderings, architectural and design plans, project timeline, and subcontractor list is encouraged. The university will consider serious proposals and inquiries from any financially qualified individual, group, organization, or company. Notice of Standing Order for Covid-19 Testing

On March 13, 2020, the President of the United States pursuant to Sections 201 and 301 of the National Emergencies Act, 50 U.S.C. § 1601, et seq. and consistent with Section 1135 of the Social Security Act, as amended (42 U.S.C. § 1320b-5), declared a national emergency that the COVID-19 outbreak in the United States constitutes a national emergency beginning March 1, 2020.

A State of Disaster Emergency was proclaimed for the State of Kansas on March 12, 2020, and such emergency was extended to September 15, 2020 pursuant to Sec. 5(a) of House Bill 2016 (special session 2020) and has since been extended through November 15, 2020.

The Kansas Department of Health and Environment (KDHE) oversees public health in the State of Kansas. The Secretary of the KDHE exercises general supervision of the health of the people of the state and may take action to prevent the introduction of infectious or contagious disease into this state and to prevent the spread of infectious or contagious disease within this state. K.S.A. 65-101(a), K.S.A. 65-128 also authorizes the Secretary of the KDHE to issue orders as may be medically necessary and reasonable to prevent the spread and dissemination of diseases injurious to the public health.

COVID-19 has been recognized as an infectious and contagious disease and a pandemic in the State of Kansas resulting in illnesses, quarantines, school closures, and temporary closure of businesses. In an effort to prevent the spread of COVID-19 the KDHE works with health care providers and local health departments to identify persons infected with COVID-19 in an effort to stop the spread of the disease.

To contain and mitigate the COVID-19 pandemic, widespread, rapid testing is key. Rampant and efficient testing determines who has the virus and who may be at risk of transmitting the virus and allows for effective management of isolation and quarantine activities for the infected or exposed.

Therefore, pursuant to the authority vesting in me pursuant to K.S.A. 65-101 and 65-128, to prevent the introduction of infectious or contagious disease into this state and to prevent the spread of infectious or contagious disease within this state, a state-wide standing order for a COVID-19 test is hereby issued which would alleviate a patient from having to get an order from their health care provider.

This standing order allows individuals to undergo testing for SARSCoV-2, the virus that causes COVID-19, subject to the terms set forth below:

1. This standing order (“Order”) authorizes any health care provider or other trained personnel, pursuant to their specific licensure, at a health care facility or medically supervised COVID-19 collection site

in the state (collectively, “collection site”) to collect and submit for laboratory analysis specimens to be tested using a SARSCoV-2 diagnostic test (antigen or PCR) for any individual in accordance with the conditions of this Order. It also authorizes the collection site that submitted the specimen for SARS-CoV-2 diagnostic testing under this Order to receive the results of the test directly from the testing laboratory. This Order further authorizes the laboratory that performed the diagnostic test for SARS-CoV-2 to provide test results directly to the individual who was tested, with the individual’s consent. KDHE will not be responsible for providing test results directly to the individual who was tested or directly to their physician.

2. Individuals, irrespective of their state of permanent residence so long as the specimen collection occurs within Kansas, who obtain testing pursuant to this Order must meet the KDHE Person Under Investigation criteria:

- G. The collection site must furnish results to the individual as soon as possible after results are received, but no later than one business day after the collection site’s receipt of the test results and provide the test result to the individual’s primary care provider, if known.
  - H. Collect complete information on the individual consistent with KDHE guidance, including the name and contact information of the individual’s primary care provider.
5. Collection sites must report positive and negative COVID-19 test results to the KDHE in a manner prescribed by the KDHE within 24 hours.

This standing order shall take effect immediately and shall remain in force and effect for the duration of the public health emergency unless otherwise modified, supplemented and/or rescinded.

The bonds, when issued, will be a limited obligation of the KDFA and will not constitute a general obligation or indebtedness of the state of Kansas or any political subdivision thereof, including the KDFA, nor will they be an indebtedness for which the faith and credit and taxing powers of the state of Kansas are pledged. The bonds will be payable solely from amounts received from the respective borrower, the obligation of which will be sufficient to pay the principal of, interest and redemption premium, if any, on the bonds when they become due.

### Article 19. Kansas Retailers' Sales Tax

**Revocation of K.A.R. 92-19-47** provides that any person acquiring property for the purpose of resale is deemed to be a retailer and must collect sales tax on the gross receipts received from such sale even if those sales may be few or infrequent. The Department will revoke this regulation to allow for isolated or occasional sales by individuals, businesses, non-profit organizations and religious organizations. Any individual/entity that does not have more than two events per calendar year for which the two events in aggregate do not exceed seven calendar days meets the definition of nonrecurring for purposes of the isolated or occasional sale exemption and therefore is not subject to sales tax. KDOR is unable to determine the impact this may have on Kansas individuals/businesses.

#### Notice of Hearing on a Proposed Administrative Regulation

A public hearing will be conducted at 10:00 a.m., January 20, 2021, in the 1st floor meeting room 124 of the Kansas Department of Agriculture, 1320 Research Park Dr., Manhattan, Kansas, to consider the adoption of a proposed regulation. Due to the public health concerns posed by the COVID-19 pandemic, the hearing proceedings will also be available via video conferencing system. Anyone desiring to participate in the public hearing via video conference must pre-register at <https://kansasag.zoom.us/meeting/register/tJEoc-CpqTMjGtc3iD-lqAjza09bJOGGgbJE>. Individuals planning to attend in person, please contact Ronda Hutton via email at [ronda.hutton@ks.gov](mailto:ronda.hutton@ks.gov) or telephone at 785-564-6715. Due to social distancing restrictions, seating for those attending the hearing in person will be limited and will be provided on a first come, first serve basis.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed regulation. All interested parties may submit written comments prior to the hearing to the Secretary of Agriculture, 1320 Research Park Dr., Manhattan, KS 66502, or by email to [ronda.hutton@ks.gov](mailto:ronda.hutton@ks.gov). All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulation during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes. This regulation is proposed for adoption on a permanent basis. A summary of the proposed regulation and the economic impact follows:

The Kansas Department of Agriculture is proposing amendments to K.A.R. 4-34-1, previously implemented pursuant to the Alternative Crop Research Act, K.S.A. 2019 Supp. 2-3901 *et seq.*, which authorized the production of industrial hemp in Kansas for research purposes. These amendments are proposed in order to make the existing rule and regulation align with the 2018 Farm Bill and the Commercial Industrial Hemp Act, which together allow commercial hemp production in Kansas.

K.A.R. 4-34-1 – This regulation contains terminology and definitions relevant to and used throughout the rules and regulations that will implement the Commercial Industrial Hemp Act. The amendments to this regulation provide that the use of “act” throughout the rules and regulations refers to the Commercial Industrial Hemp Act rather than the Alternative Crop Research Act, create a license for creditors who need to take possession of industrial hemp, and add definitions for “ground cover,” “hemp,” “licensed growing area,” and “lot.”

#### Economic Impact Statement:

The amendments to this regulation are proposed in light of the passage of the 2018 Farm Bill and K.S.A. 2019 Supp. 2-3901, *et seq.*, the Commercial Industrial Hemp Act, to ensure that hemp production in Kansas is regulated in accordance with current federal requirements. This regulation will be implemented in conjunction with the Department’s separately proposed commercial hemp regulations, K.A.R. 4-34-22 through K.A.R. 4-34-30, and it thus poses substantially the same economic impact as those regulations. Commercial hemp production has the potential to provide significant long-term economic benefit to the state of Kansas, but this potential remains difficult to quantify, as much remains to be learned about hemp production.

Any individual with a disability may request accommodations to participate in the public hearing and may request the proposed regulation and impact statement in an accessible format. Requests for accommodations should be made at least five working days in advance of the hearing by contacting Ronda Hutton at 785-564-6715 or fax 785-564-6777. Handicapped parking is located on the west side of the building at 1320 Research Park Dr., Manhattan, Kansas, and the west entrance to the building is accessible to individuals with disabilities.

Copies of the regulation and its economic impact statement may be obtained by contacting the Department of

Agriculture, Ronda M. Hutton, 1320 Research Park Dr., Manhattan, KS 66502 or 785-564-6715 or by accessing the department’s website at <https://www.agriculture.ks.gov>. Comments may also be made through our website at <https://www.agriculture.ks.gov/document-services/public-comment>.

### Board of Technical Professions

#### Permanent Administrative Regulations

#### Article 6. — PROFESSIONAL PRACTICE

**66-6-1. Seals and signatures.** (a) Each licensee, within 30 days of a license being issued, shall obtain a seal of the design approved by the board in compliance with K.S.A. 74-7023, and amendments thereto, and this regulation. The seal shall be made of two concentric circles. The outer circle shall be  $1\frac{5}{8}$  inches in diameter. The inner circle shall be  $1\frac{1}{16}$  inches in diameter and shall contain the words “LICENSED” at the top of the circle and “KANSAS” at the bottom of the circle and the number of the license certificate in the center. The area between the two circles shall, except as provided in this subsection, contain the licensee’s name as it appears on that individual’s license at the top of the circle and the licensee’s profession at the bottom of the circle.

The seal may contain, before the licensee’s surname, an abbreviated form of the licensee’s given name or a combination of initials representing the licensee’s given name. The seal may be a rubber stamp, an embossed seal, or a digital seal.

(b)(1) After the licensee’s seal has been applied to any document, the licensee shall apply the licensee’s handwritten or authenticated digital signature and the date across the seal. The application of the licensee’s seal and signature and the date shall constitute certification that the document on which the seal was applied was created by the licensee or under the licensee’s responsible charge.

(2) After a licensee has applied the seal, handwritten or digital signature, and date to a document, that document may be reproduced as necessary for the project in accordance with applicable law.

(3) Any licensee may use a digital signature if the digital signature authentication process meets all of the following requirements:

- (A) Is unique to the licensee using the digital signature;
- (B) is able to be verified;
- (C) is under the sole control of the licensee using the digital signature; and
- (D) is linked to an electronic document bearing the digital signature in such a manner that the signature is invalidated if any data in the document is altered.

(4) Each transmitted or stored electronic document containing a digital signature shall bear the signature, date of signing, and seal, which shall be a confirmation that the electronic document was not altered after the

(continued)

initial digital signing of the document. If the electronic document is altered, the signature, date, and seal shall be void.

(c)(1) Except as provided in K.S.A. 74-7031, K.S.A. 74-7032, K.S.A. 74-7033, K.S.A. 74-7034, or K.S.A. 74-7042a and amendments thereto, each document, including drawings, technical reports, original land descriptions for the purpose of conveying an interest in real property, records, and papers, shall be sealed, signed, and dated by the licensee who prepared the document or by the licensee who is in responsible charge. The licensee shall seal, sign, and date only work within the licensee's area of licensure and competence. Unless the licensee is in responsible charge, that licensee shall not review or check technical submissions of another licensed professional or unlicensed person and seal the documents as the licensee's own work.

(2) Documents required to be sealed, signed, and dated shall include the following:

(A) Any document submitted to any public or governmental agency, a client, or a user for final approval or recording; and

(B) each revision to a sealed, signed, and dated document, which shall be identified and sealed, signed, and dated by the licensee responsible for the revision.

(d)(1) The following documents shall be sealed, signed, and dated as specified in this subsection:

(A) For a set of drawings, in one of the following ways:

(i) On each drawing sheet of a set of drawings;

(ii) only on the first sheet of a multisheet set of project drawings if a digital signature authentication process meeting all the requirements in this regulation and capable of digitally linking all drawing sheets to a licensee's area of responsibility is utilized; or

(iii) in a certification block displaying the seal, signature, and date of each licensee in responsible charge and designating the drawing sheets for which each licensee is responsible, which shall be included on the cover sheet or first drawing sheet of the set of drawings;

(B) for project-specific technical specifications, on the cover sheet or index page. If multiple licensees contribute to these specifications, each licensee shall also designate each part for which that licensee is responsible;

(C) for each technical report or survey plat, on the first or last page;

(D) for original land descriptions for the purpose of conveying an interest in real property, on the first or last page;

(E) for each manufacturer's design document submitted in response to a project's delegated design requirements, including performance specifications or drawings for a specific system or components that are not commonly manufactured items standard for order, and prepared by or under the direct supervision of a Kansas licensee, with the submittal sealed, signed, and dated by the manufacturer's Kansas licensee as specified in paragraph (d)(1)(A) or (B); and

(F) for modified standard details or drawings required by a public agency to be incorporated in a project, on the cover sheet or index page of the document.

(2) For multiple seals, each licensee shall affix that individual's seal and signature to the document and shall

designate the specific subject matter for which that licensee is responsible, in a note under that licensee's seal or in the title or index sheet indicating the document to which the seal applies.

(e) The documents not required to be sealed, signed, and dated shall include the following:

(1) A working drawing or preliminary document, if the working drawing or preliminary document contains a statement in large, bold letters stating "PRELIMINARY, NOT FOR CONSTRUCTION, RECORDING PURPOSES, OR IMPLEMENTATION" or words of comparable meaning; and

(2) published standard details, drawings, or specifications adopted by a municipal, county, or public agency, if incorporated in that agency's own projects. These documents shall be referenced within the project's set of drawings when used. Nothing in this subsection shall relieve a licensee of the duty of professional conduct.

(f)(1) If a licensee who has responsible charge of the work is unavailable to complete the work, a successor licensee may assume responsible charge by performing all professional services, including developing a complete design file with work or design criteria, calculations, code research, and any necessary and appropriate changes to the work, under either of the following conditions:

(A) The work is a site adaptation of a standard design plan.

(B) The non-professional services, including drafting, are not required to be redone by the successor licensee but clearly and accurately reflect the successor licensee's work.

(2) The successor licensee shall have responsible charge over the work product.

(3) The successor licensee shall be responsible for compliance with this subsection. (Authorized by K.S.A. 74-7013; implementing K.S.A. 74-7023; effective May 1, 1978; amended May 1, 1984; amended May 1, 1985; amended May 4, 1992; amended Feb. 22, 1993; amended Feb. 13, 1995; amended March 1, 1996; amended Feb. 6, 1998; amended Nov. 2, 2001; amended March 28, 2008; amended, T-66-5-30-14, July 1, 2014; amended Sept. 26, 2014; amended June 3, 2016; amended Dec. 4, 2020.)

**66-6-10. License statuses.** Any licensee may elect to place the license, at the time of renewal, into one of the following license statuses:

(a) Active status shall require renewal every two years with the appropriate fee. The individual shall have 30 continuing education units (CEUs) of approved continuing education activities as required for renewal.

An individual on inactive status shall not practice a technical profession in Kansas.

(c) Emeritus status shall require the individual to be at least 60 years of age. The individual shall submit a one-time application, with no fee and no proof of continuing education required. The individual shall have no pending disciplinary action. Any individual who chooses this

license status may use that individual's professional title in conjunction with the word "emeritus." An individual on emeritus status shall not practice a technical profession in Kansas.
